NOTES:

- 1 - IGOT-ULisboa and ULisboa **are not held responsible** for the conditions of these accommodations as they are only indicative.
- 2 - When you have found accommodation, please **do not** make any down payments (deposits) or full payments until you are absolutely sure the place exists, is exactly as the announcement and is really for hire. There are many offers in Facebook and other websites that **do not** exist and after receiving payments they completely "disappear".
- 3 - Until students get their permanent accommodation we advise them to stay in a [Youth Hostel](#). They should book in advance to ensure a reservation.

¹ [Spacest.com](https://spacest.com) offers a **15% discount** on the booking fee that is asked to reserve a property in the platform, the dedicated service and support of the team of local agents (which can help students, visiting teachers, researchers, and staff in general, not only with the looking for their accommodation, but also throughout the duration of the lease), and priority on their requests though the dedicated email: reservas@roomlessrent.com (which ensures them higher chances of getting their rental requests accepted by landlords).
